Pressure Against Individual Specialties, Which Was Manifested at the Opening, Served to Unsettle the Market.

NEW YORK, Feb. 23.-There was a light accumulation of orders over the holiday, which were executed in the stock market at the opening this mornstock market at the obening the shockers bought stocks on a small scale for foreign account, to cover sales made in London at the higher level, induced by the rumor, which found credence on the other side, of the surrender of the Boer General Croaje. There was continued absorption on a limited scale of the stocks of some of the railroad companies which have shown extraordinary increases in earnings during the week, and to which was added to-day Northern Pacific, with an increase for the second week in February of \$129,308, or 41 per cent. Western New York and Pennsylvania, of the bituminous coal group, showed an increase of 38 per cent. But even at the opening pressure was manifest against individual stocks amongst the specialities, which served to unself the market, and eventually to the tide in favor of the reactionists. The depression was manifest at the opening in Third-Avenue, People's Gas, Leather and Sugar. At the day progressed other stocks came under pressure, and the group above-name showed some covery. The iron and steel group above-name showed some covery. The iron and steel group above-name showed some covery. The iron and steel group above-name showed some covery. The iron and steel group alove the first affected by the spread of weakness. Tennessee Coal dropping an exceptible and wire. COTTON MARKETS.

NEW YORK, Feb. 23.—COTTON—From start to finish the cotton market was in another whirl of excitement to-day. What many had predicted happened in the way of a repetition of the Lincoln birthday advance abroad. The Liverpool market closed at a net gain of 5-64 to 10-64, as compared with final prices of Wednesday. This meant a rampant market in New ork. The first call here developed an advance of 10 to 15 points. For the rest of the session the course of the market was very irregular and at times erratte with an enormous demand from all points in good part from Great Britain and the Continent. The South was also a heavy buyer. At one time the advance was 20 to 29 points. At the close the market was steauy at a net rise of 9 to 27 points. Private cables stated that a better feeling was beginning to manifest itself again in England; that the English market was being favorably influenced by the light interior movement in the South. The main factor in the advance, however, was the unsatisfactory movement in cotton. There have come into sight this year, thus far, 7.540.084 bales, against 9.305.841 bales for the same time last year. There came into sight in March, last year, 636,000 bales, and estimates are very wild as to the amount to come into sight this March, and on expectation that it will reach the same figures as last year. There was considerable selling in the afternoon. There was ne do of buying power, however, and the market closed steady. NEW YORK, Feb. 23.-COTTON-From start to finish the cotton market was
